

IPAF MEWPs for Managers

Course Objectives:

The IPAF MEWPs for Managers course is essential training for anyone who supervises or plans working at height. Developed in conjunction with major contractors, the course covers topics including the correct selection of platforms, regulations associated with work at height, emergency procedures, equipment maintenance and pre-use checks. Practical demonstrations are also included if machines are available.

Who should attend:

Employers, project managers, foremen and supervisors working in a broad range of industries such as construction, facilities management, retail, airports and arboriculture. Anyone who is responsible for planning and overseeing the use of MEWPs on their job site.

Course Duration - 1 day

Certification – Successful candidates will receive the MEWP for managers qualification, and an IPAF Certificate of Training. These will both be accessible via the IPAF ePAL app, available on Android and iOS smartphones, which also includes a logbook and safety information.
