

Slips, Trips & Falls

The aim of the course is to:

Provide knowledge on how to prevent slips, trips and falls from occurring within the workplace. Slips, trips and falls can occur at any time, and accidents do happen; therefore, it is essential that precautionary measures are in place to prevent serious risk or injuries to health.

Learning Objectives:

On completion of the course, you should be able to:

- Name the 3 principle Regulations relevant to this area of health and safety
- Recognise the role of the 'Responsible Person'
- Identify the role and importance of 'Accident Books'
- Name who has a duty to enforce compliance under health and safety laws.
- Identify what the 'Insurance Iceberg' is
- List some 'direct' and 'indirect' costs of accidents.
- List the four main legislations that affects health and safety in the workplace.
- Identify the responsibilities of employers, employees and those who enter the workplace.

Course summary:

- What the law says and current legislation
- How slips, trips and falls happen.
- How to prevent slips, trips and falls in the workplace with good housekeeping, floor quality, correct footwear and taking care of yourself personally at work.
- Safety precautions
- Making your workplace a safer place for you and your colleagues

Course Duration: ½ Day

Certification: Inhouse STS Certification
